

The ELEMENTRA® 16 convinces with many relevant accessories from the FEIGE modular system and a complementary product hose system. New features provide for even more accuracy and sustainability.

The new FEIGE web HMI with touch screen offers an intuitive design for high operating comfort. The mobile execution is designed for the individual place of use. All you need to move it is a fork lift.

## ● Base height adjustment

- With continuously adjustable base height adjustment for changing over to different container heights

## ● Lifting unit

- Sturdy double-acting pneumatic actuator or servo motor with threaded spindle
- No compressed air or power supply – no lowering of valve (passive brake)

## ● Actuator for opening and closing the filling valve

- 2-stage push-type for coarse fill and adjustable fine fill
- Stainless steel quick-change holder of filling valve for quick replacement of the valve with lance

## ● Stainless steel execution

## ● Web HMI

- Alarm-related help texts with photos, videos and comment function
- Intuitive design
- Operation like a smartphone
- 15.6" multi-touch screen
- Full HD display
- Comprehensive management of recipes and orders
- FDA-compliant user administration
- Logbook (optional)
- Web-based system

## ● Different containers

## ● Filling modes

- Below-surface, for products which produce foam during filling

## On spot equipment: pivoting pallet filling system
